

Florida Pesticide Residue Workshop  
FLAG Works  
3230 Yorktown Drive  
Tallahassee, FL 32312-2016

<http://www.Flworkshop.com>

---

August 8, 2008

Dear Colleagues,

FPRW 2008 was a huge success because of your participation. We'd like to ensure that the impact of this workshop on your laboratories is recognized by the State of Florida, as they have been the sponsor of this workshop for many years. We need your help.

Please send your name, organization and state with a sentence or two about how FPRW benefits your lab. Please be as specific as possible in giving examples of benefits (e.g. I was able to analyze X in Y using Z method I learned while at FPRW).

Please send to Sherry Garris at [sgarris@scda.sc.gov](mailto:sgarris@scda.sc.gov)

...who will then compile your comments and Jo Marie will post on the website. This will also help attract others to the conference, as well as highlight the impact of the FPRW's contribution to improving the safety and quality of our food supply nation wide. Examples from FPRW 2008 and past FPRWs are all welcome.

Please send this information while it is fresh in your mind – by August 22, 2008.

Thank you again for your participation and your help. See you next year!

Warmest regards,

Yolanda Fintschenko, FPRW Organizing Committee President,
