Join the Chemical Contaminants and Residues in Food Community!

We welcome participation from scientists throughout the world, whether they are working for a government agency, a private laboratory, academia, industry or trade organizations.

You do NOT need to be a member of AOAC. You will not be required to attend meetings or review volumes of data. But we do need to understand your analytical capabilities and needs in order to focus efforts on the areas of greatest interest. (For that reason, all members are expected to actively participate in the work of the Community including, but not limited to, promptly responding to communications, attending and actively participating in meetings, reviewing meeting background material and agenda prior to meeting and accepting and following through on assignments. Persons who do not actively participate will be removed from the Community by the Chair.)

Fill out attached application and submit to Community Chairs or email to Jo Marie Cook (cookj@doacs.state.fl.us)

Name: _____

Organization or Company: (or retired) _____

Business Type: (Check all that apply. If retired, check previous experience.)

Government National or State (Province) or Local (city, county, etc)

Industry

Food Production Processing Distribution Import/Export Retail Restaurant
 Manufacturer Chemicals Instrumentation Methods/Kits
 Sales Chemicals Instrumentation Methods/Kits
